### Lucas County Fairgrounds (NOT the Rec. Center) in The Jr. Fair Building

*The Jr. Fair Building is to the South of the Rec Center and the Pony Field.*

*It is a tan stucco building with a portico attached. See map at bottom of this email.*

If you are a teacher looking for supplies for your classroom, we got you covered. Decorations and fun stuff for every holiday on the calendar. Sports equipment, furniture, office supplies, pet supplies, linens, housewares, you name it- we got it.

Clothes? We have so many clothes it's mind boggling. We have so many clothes we are offering a special deal. You can fill a plastic grocery bag full of clothes for \$3 all weekend long. Of course, some special clothes that are of high quality, name brands or vintage have been set aside and are not a part of this special offer.

As usual, all day on Sunday we also have our \$3 bag day. Anything you can fit in a brown paper grocery bag is \$3 for the entire bag.

We do still need volunteers and would appreciate any help you can offer. We need help with sorting items before the sale and a people during the sale to help our customers, bag up purchases and tidy up as we go along. It's simple, fun and you are helping the dogs and cats in our community. **Sign up [HERE](#).**

## Help Rose See How Much She Is Loved

allowing animals to breed because they take no steps to spay/neuter those in their care or in their neighborhood.

We do know that all the rain this year will bring more cases of heartworm disease. We know we battle against educating our fellow man to the dangers of this disease that kills regardless of breed, indoor versus outdoor, urban versus rural. It knows no boundaries.

Education is our greatest and most effective weapon. Please help us spread the word about the mission of Planned Pethood through educating those you know. Opening up honest conversations about the importance of spay/neuter and

This is little Rose, about 8 wks old. Who knows why this little girl was living on the streets, but she was, and luckily a kind person found her and contacted Planned Pethood. Although we are overloaded with kittens and over budget on expenses, we couldn't say no to Rose. After arriving at a vet clinic, it was discovered that Rose's eye was so badly infected that it actually had ruptured. So she will get the vet care she needs and she will have to have her eye removed, her total vet expenses should be around \$500 and Planned Pethood could really use help with this cost. Please help if you can, we never want to have to say no to a kitty like Rose because of finances!!!

We have a goal of \$500. You can see how close we are to the goal and make a donation [HERE](#).
